

A smiling woman with blonde hair, wearing a white long-sleeved top and blue jeans, stands in the center. She is holding two binders: a blue one with a HERMA label and a grey one with a "CURRICULUM" label. The background is filled with a row of colorful binders (light blue, white, grey, teal, purple, dark grey, red, dark blue) with various labels like "Controlling", "Invoices", "Sales", "Marketing", "Strom / Gas / W", "Kra", and "be".

FILE LABELS

**ORGANIZE. IDENTIFICATION. RECOVER.
KEEP TRACK OF EVERYTHING.
PERMANENT. REMOVABLE. CREATIVE.**

Made in Filderstadt Germany!

Short distances, state-of-the-art facilities,
from the self-adhesive material to the high-quality label

This is how quality is created – from the raw material to the label

The self-adhesive material for HERMA labels is manufactured with the utmost precision on state-of-the-art coating machines – for maximum print reliability and trouble-free application. The entire production process takes place at one location, from the processing of raw materials to the finished label. Short distances save on transportation and conserve resources. Quality, sustainability and efficiency – Made in Germany.

File Spine Labels

permanent and removable

- In white, standard colours and a wide range of sizes
- Top quality and perfect performance
- Perfect for labelling – free of charge – with the LAO
- Permanent: for long-term and frequent use or archiving
- Removable: for changing files and contents; peels off without residue

Organise with a system! The right file spine label for every use

No matter which file you use – the HERMA range offers the right solution: for narrow and wide standing and hanging files, in short or long versions with grip holes. For sticking on or slipping in, in white or colour. Guaranteed to deliver the best print results in black and white or colour.

Free, simple and quick: www.herma.com/lao

File Spine Labels

permanent, in white and in standard colours

- Vibrant colours for clear organisation
- Permanently adhesive, for long-term identification
- Ideal for sticking over existing labels
- For structure, clarity and prioritisation

Permanent colour coding for safe and professional processes

Available in white and in the four standard colours: red, yellow, blue and green – in various formats and pack sizes to suit every need. The labels on DIN A4 sheets ensure precise print results and permanent, reliable adhesion.

They adhere securely to the file for the long term, do not slip out of place and ensure a consistently neat, professional appearance even with frequent use. Ideal for structured filing systems, long-term identification, as well as sorting and visual organisation in offices, warehouses or dispatch departments.

File Spine Labels

removable, white

- Opaque and removable for neat file spines
- Can be peeled off without residue or damaging the file
- Sticks securely – even with frequent use

Sticked securely. Removed without residue.

The file spine labels make it easy to update the text when the contents or organisational structure change. The special Adhesives ensure a secure hold during use and can be removed cleanly and without residue if required.

Even with frequent use, the labels remain firmly attached to the file. The opacity ensures a consistently neat and professional appearance.

Inkjet File Spine Labels

permanent, white, photo quality

- Inkjet printing with sharp contours and maximum colour brilliance
- High-quality, coated speciality paper
- Permanently adhesive, for long-term identification
- Ideal for logos, lettering and professional filing labels

More than just labelling: File spine labels with style

These self-adhesive labels on A4 sheets have been specially developed for inkjet printers and, thanks to their all-round protective border, ensure trouble-free printing – even with challenging paper feeds.

Supplied blank, they offer maximum design freedom and adhere reliably even with frequent use of the file. Almost too good for the filing cabinet!

Slipping in rather than sticking on – another neat solution

Slip-in spine insert labels are the ideal solution for files with a transparent sleeve or slip pocket on the spine. Without the need for any adhesive, labels can be replaced quickly and neatly at any time – perfect for changing content, projects or filing systems. The bright white, coated card ensures a smooth surface and high opacity, so that labels appear clear, high-quality and easy to read. Thanks to the fine micro-perforation, the spine labels can be separated precisely and cleanly. This means that insertable spine labels offer maximum flexibility.

Micro-perforation
